RGP Lens

Rigid gas-permeable contact lenses

Due to its prescription peculiarities, the rigid gas-permeable contact lens requires special materials able to provide, for each geometry, excellent application results. Comfort and eye health are the main targets of this range of contact lenses, able to offer medium, medium-high and high transmissibility index, in order to respond to all the oxygen necessities of the eye during the hours of application.

Lente RGP

Lenti a contatto rigide gas-permeabili

La lente a contatto rigida gas-permeabile, per le sue peculiarità di prescrizione, necessita di materiali particolari che, uniti alle geometrie produttive, forniscono ottimi risultati applicativi. Comfort e salute dell'occhio sono i principali obiettivi di questa gamma di lenti a contatto, che offre indici di trasmissibilità medi, medio-alti e alti, per rispondere a tutte le necessità di apporto di ossigeno della struttura oculare durante le ore di applicazione.
