

10 ml bottle

UnodropsHY Drops

UnodropsHY gives an immediate and lasting sense of relief and restores the right hydration of the eye.

Sodium Hyaluronate has high viscoelastic properties, which improves the lubrication and biocompatibility of the lenses.

UnodropsHY Micro nebulizer

UnodropsHY Spray is the only and unique eye drop available in spray to be used on open eyes.

It helps to relieve tired and red eye conditions.

Thanks to its high vaporization, it can be applied with contact lenses and with make up as well.

10 ml bottle
