

GOLD contact lenses

an amazing golden effect on your eyes!

2 monthly lenses envelope

9 envelopes desk display

Pretty Eyes GOLD

Pretty Eyes GOLD lenses add flecks of realistic gold to your eyes, not by covering all of your own eyes natural color, but by adding a shimmering effect instead.

The lenses enhance your natural eye color with a golden sparkle.

These contacts add a gold shimmer around the edges of your iris to make your eyes appear larger and more alluring.

Particles of gold shine out on every single move you make when the light catches your eyes.
